Automated Blood Pressure Monitor

Clinically validated automatic blood pressure monitor, according to BIHS-standard A/A. It features irregular heart-beat recognition, memory storage up to 99 readings, pulse tone and date and time functions.

- › Measurement of blood pressure and pulse
- › Meets BIHS-standard A/A
- › Recognition of arrhythmia
- › Large LCD display
- › Optical and acoustical pulse signal
- › Memory for 99 previous readings
- › Date and time
- › Cuff storage
- › Weight: 630 g with batteries
- › Size: 98(W) x 163(L) x 106(H) mm / 3.9(W) x 6.4(L) x 4.2(H) in
- › Measuring range: SYS/DIA: 30 to 280 mmHg
- › Pulse: 40 to 200 per minute
- › Accuracy: Pressure within ± 3 mmHg, Pulse ± 5 %
- › Power source: 4 batteries size AA, 1.5 V (included), Mains adaptor 6 V, 600 mA (optional)

1725-145	ri-champion [®] N with 4 AA-batteries and cuff size M (adults standard)
12750	Mains adaptor 6 V, 600 mA (EU)
12751	Connector for calibration check
